

The Deliver for Good Commitment to Girls and Women

Wherever inequality lives, there stands a girl or woman able to turn the tide of adversity into a tidal wave of progress. We simply have to commit to her.

Deliver for Good is a global campaign that applies a gender lens to the Sustainable Development Goals and promotes 12 critical investments in girls and women to power progress for all.

Girls and women carry more than babies. Or water. They carry families. They carry businesses. They carry potential. And when we invest in their health, rights, and wellbeing, it creates a positive ripple effect that lifts up entire countries.

Give girls and women access to healthcare, and they will deliver more resilient families. Give girls and women the potential to learn, and they will deliver stronger economies. Give girls and women opportunities, and they will deliver solutions.

**Deliver for them. Deliver for all.
Deliver for good.**
