

# Ensure Health for All

## THE WORLD TODAY

**3 BILLION** 3 billion people do not receive the health services they need

**100 MILLION** Nearly 100 million people are impoverished by the cost of healthcare

**44% HIGHER** HIV infections are 44% higher among young women, ages 15 to 24, than they are among young men in the same age range

## THE INVESTMENT CASE

Vaccinating adolescent girls against the human papilloma virus (HPV):

**costs just \$10-\$25 per person**

would avert more than **3 million** cervical cancer deaths

Implementing recommended interventions for noncommunicable diseases (NCDs) prevention and control in low- and lower-middle-income countries:

**SAVES 8.2 million lives**

**YIELDS US\$350 billion in economic growth between 2018 and 2030**

## SOLUTIONS

Health for all through universal health coverage

Universal health coverage that includes sexual and reproductive healthcare and NCDs care

People-centered care, with a focus on all girls and women

Robust and well-trained health workforce that is accessible for all

# Healthy girls and women are the cornerstone of healthy societies. Provide girls and women access to health throughout their lives and they will deliver a healthier and wealthier world.

## ASKS

**Eliminate legal, financial, social, and institutional barriers** that prevent access to comprehensive health services for all girls and women.

**Set and meet national targets** across girls' and women's health and wellbeing needs — including sexual and reproductive health, as well as communicable and noncommunicable diseases.

Focus efforts towards more integrated, **women-centered healthcare** to address the needs of girls and women along the life cycle.

Build the capacity of health workers and **address health worker shortages** and general wellbeing, particularly in rural and underserved areas and in emergency and conflict settings.

**Build and disseminate evidence** of the impact of women-centered care.

**Invest in strong national information systems** and implement legal frameworks for privacy protection.

Promote **girls' and women's involvement in sport** as a critical way to foster wellbeing and healthy behaviors.

## RIPPLE EFFECT

Healthier populations

More efficient health systems

More lives saved

Stronger economies
